

Rotor Wash

Volume 12 Issue 3

March 2008

Message from the President

Monthly update

Eric Stevens (e_stevens@cox.net)
ARMS President

It's fun fly time again. I apologize for all that were planning on attending the meeting, but due to the proximity to the fun fly and the fact that I will be dead tired after set up, I have elected to cancel the meeting for March. Based on the turn out at the last couple of meetings, I pretty certain that I will have more members helping on set up on Thursday than would attend the meeting. I will be back and forth to the field on Thursday, March 6 starting from around 9-10AM thru out the day. This is a long process as I have to work around the aircraft in flight, so I won't be offended if you bring something to fly. Our pre-registration has not been the greatest; however I have seen a lot of activity on line from people planning on coming. This year Curtis Youngblood will be attending, so that will be a treat. Hopefully everyone can pitch in and make this a great event.

Several members have asked if we might do some polo shirts for the fun fly like several years back. These shirts would have the fun fly logo on the back. Price would probably be somewhere around \$20. Anyone who is interested should email me with size and quantity.

On different note, I want to thank everyone for pinning up their AMA cards at the field and cutting back in other areas. This really helps. That's it for now. Hope to see everyone out there.

Eric

Stuff for Sale

Barry Beagle (notarheli@hotmail.com) has the following for sale:

| | |
|---|---|
| <u>Raptor90SE</u> GY401 w/S9254 GV-1 Governor Lipo receiver battery pack with AZ regulator JR 9303 transmitter JR receiver and servos YS91 with Hatori SB16FH Radix 710's Modified tail rotor setup Misc. upgrades \$1500 | <u>Raptor90 converted to SE</u> GY401 w/S9254 GV-1 Governor Lipo receiver battery pack with AZ regulator JR 8303 transmitter JR receiver and servos YS91 with Hatori SB16FH Radix 710's Modified tail rotor setup Misc. upgrades \$1400 |
|---|---|

Will include with either of the above a starter, hand crank or electric fuel pump with 1gl fuel, Radio South ni-starter and field box. \$100

Other items for sell:

Carbon Xtreme Raptor carbon frame set

Triton charger

AC power supply capable of putting out 12 volts at 20 amps

Misc. parts and supplies for YS 91 engines (bearings, gaskets, o-rings), JR servos, and Raptors.

Misc. electronics like servos, governors, receivers, etc.

Transmitters can be swapped between aircraft if first purchaser desires. Both are set up for the 9303 and are in perfect flying shape. With minimal adjustment, either one can be set up for the 8303.

Photos from the field...

Here are some Sun Valley pics.

Notes from the Editor

Fun Fly

Paul Clifton Jr. (pcliftonjr@cox.net)
ARMS Secretary

See you out there!

Paul
